## Summer Term 1 2026

IT'S A  
GOOD DAY  
TO DO  
MATHS

### Links to Great Maths Webpages

Here are some ideas to practise number fluency at home.

#### What is subitising?

Subitising is the ability to look at a small set of objects and instantly know how many there are without counting them. For example, when rolling a dice we don't need to count the dots to know how many we have rolled. It is important in the early development of number sense.

I know I have rolled a 5 without needing to count the dots.

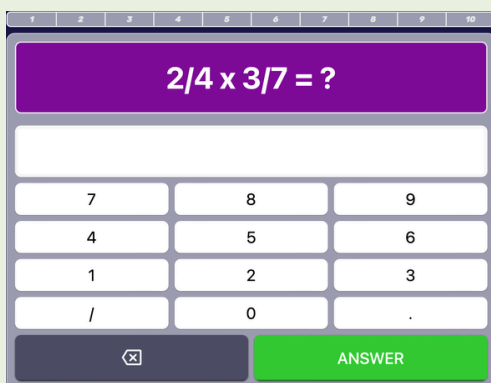

I have 5 green counters and 3 red counters so I must have 8 counters.

### Arithmagicians

We have recently subscribed to Arithmagicians which is an engaging online game that helps children quickly recall key maths fact ranging over a wide range of topics.

Year 1 - Year 6 login details are in your child's reading diary.

Welcome to our Summer Term 1 Maths Newsletter! Here, you'll find fun activity ideas to try at home with your child. Regular practice of number bonds and times tables will make a big difference to their progress in school.

### Top Tips for Maths at Home 1 2 3 from National Numeracy

Everyone can help children with maths - you don't need to be an expert, and we can help! Whether as a parent, carer or a teacher, building our own confidence with numbers helps when supporting children with maths.
